AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Crew Jacobo Gamez consists of 64 members harvesting watermelons in Lot 184S. The harvest crew operates from June through October. This audit assessed the harvesting practices and sanitary facilities used by the crew. The product is hand-harvested using knives by the first group of cutters (24 workers), who place the watermelons in a single line on top of the bed. The second group (40 workers) lifts the product from the row and places it into plastic bins on a flatbed trailer. The harvested product is then transported to the company’s facility for final packaging. Portable restrooms are available on site and serviced in-house. This audit covered a group of three ranches, four harvest crews, and one packinghouse operating under the same Food Safety Management System (FSMS).

Addendum(s)/Module(s) included in the audit:

Not Applicable
